<b>Office Action Summary</b>	<b>Application No.</b> 10/761,746	<b>Applicant(s)</b> VALBJOERN ET AL.	
	<b>Examiner</b> Mr. Terry K. Cecil	<b>Art Unit</b> 1797	

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

### Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

*This restriction requirement is being sent in order to (i) correct an error in the previous restriction requirement; (ii) point out an error in the claim dependency; and (iii) recommend changes to advance prosecution.*

## **DETAILED ACTION**

### ***Election/Restrictions***

1. This application contains claims directed to the following patentably distinct species:
  - Species I, claims 1-8, 11, 13-14 and 16-17 drawn to a water purifier having a pressure control device including a control valve responsive to pressure on both the primary and secondary sides.
  - Species II, claims 9-10, 12 and 15 a water purifier having a pressure control device that is responsive to the quality of water to be purified.

(i) Claim 12 should have been grouped with Species II; (ii) given the terms used in claim 17, it's clear that applicant intended for claim 17 to depend from claim 16 rather than claim 15—in the response to this requirement, Applicant should amend the dependency of claim 17, otherwise claim 17 will not be searched if applicant re-elects Species I.

2. The species are independent or distinct because the respective species have a materially different design and mode of operation and function; (2) have mutually exclusive characteristics; and (3) there is nothing of record to show them to be obvious variants.

Applicant is required under 35 U.S.C. 121 to elect a single disclosed species for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable. Currently, no claims are generic.

Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which depend from or otherwise require all the limitations of an allowable generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

3. A call was made to the office of Marina Cunningham on 10-29-2007 but did not result in an election being made. Applicant is advised that the reply to this requirement to be complete must include (i) an election of a species or invention to be examined even though the requirement be traversed (37 CFR 1.143) and (ii) identification of the claims encompassing the elected invention. The election of an invention or species may be made with or without traverse. To reserve a right to petition, the election must be made with traverse. If the reply does not distinctly and specifically point out supposed errors in the restriction requirement, the election shall be treated as an election without traverse. Should applicant traverse on the ground that the inventions or species are not patentably distinct, applicant should submit evidence or identify

Art Unit: 1797

such evidence now of record showing the inventions or species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C.103(a) of the other invention.

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

#### **Examiner Suggestions**

4. The Examiner recommends that in a response to this requirement applicant should
  - (i) re-elect Species I and cancel non-elected Species II;
  - (ii) amend claim 17 to depend from claim 16; and
  - (iii) add the following to claim 1: “said control valve being arranged in a connection line between an outlet of the fluid pump and the primary side of the diaphragm unit.”

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Mr. Terry K. Cecil whose telephone number is (571) 272-1138. The examiner can normally be reached on 8:00a-4:30p M-F..

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Dave Sample can be reached on (571) 272-1376. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
